HOW TO INSTALL

To install TPTP packages using the Eclipse Update Manager:

1. From the Help menu in Eclipse, select Software Updates > Find and Install.

2. Select the Search for new features to install radio button. Click Next.
3. Add a new update site by clicking on **New Remote Site**.

4. Enter the following name and URL and click **OK**:
   - Name: Populo
   - URL: http://eclipse.org/tptp/updates/site.xml
5. In the "Search Results" dialog box, select the features to install. Then click **Next**.

6. In the "Feature License" dialog box, accept the license and click **Next**.
7. In the "Installation" dialog box, verify the features to be installed and change install location if necessary. Then click **Finish**.
